

# Existential - Humanistic Institute

Education and Experiential Training

## THE FUTURE OF PSYCHOTHERAPY COLLOQUIUM

How do we train developing therapists and how do we continue to deepen our practice throughout the years?

This colloquium will encourage participants to share their ideas about the vital skills and attitudes that a therapist in training needs to learn and develop, and with regard to the practicing therapist, which skills and attitudes will not only enrich and deepen clinical work but also perhaps impact society in general.

We hope that our discussions and dialogue will contribute to the profession of psychotherapy by stimulating clinicians, educators, trainers, schools, and licensing agencies to reflect upon the necessary components of effective psychotherapy.

Thank you for your interest and we hope to see you at this year's EHI "The Future of Psychotherapy" Colloquium.

Sincerely,

*Nader Shabahangi and Mary G. Madrigal*
